WM. C. BECKERT'S

GENERAL LIST OF

Vegetable and Flower

SEEDS

And Specialties for

Market-Gardeners and Florists

THIS WHOLESALE CATALOGUE contains a list of all such varieties as are generally used by Market-Gardeners, and in addition our Specialties and New Introductions of approved merit. Of the host of Novelties brought to notice every year, there are but few, indeed, that possess any intrinsic value. These we avoid, with the exception of such as we find, after careful tests, worthy of introduction.

Full descriptions of all varieties listed in this Catalogue will be found in our General Catalogue, a copy of which will be mailed herewith.

Seeds at ounce, quarter-pound and pound prices sent postpaid at Catalogue prices.

WM. C. BECKERT

New No. 103, old No. 19 Federal Street, ALLEGHENY, PA.

Beckert's Vegetable Seeds.

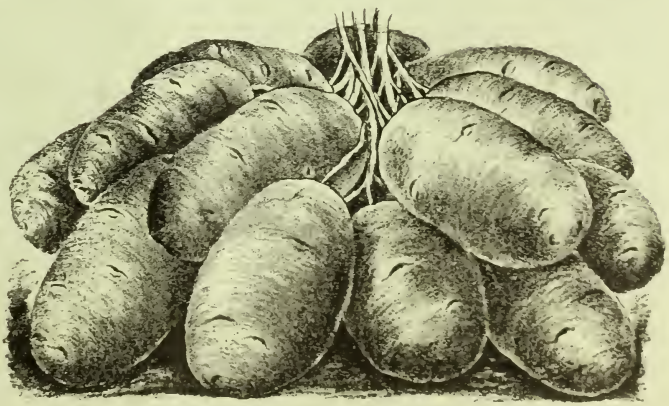
The Bovee Potato.

The earliest Potato ever introduced, and a heavy yielder. In a competitive trial with other early sorts it has outyielded them all. The vine is dwarf and stocky, and the tubers grow remarkably close together in the hills. Says a report from *The Rural New-Yorker* trial grounds: "The Bovee is at least 12 days earlier than the Early Ohio, but even were it no earlier, the almost perfect shape of the Bovee would win the prize every time." See page 16.



Florists' Flower Seeds.

We devote equally as much care and attention to the department of florists' seeds as to vegetable seeds for market-gardeners. Our stocks are grown for us by the best growers and specialists, both at home and abroad, and entire confidence can be placed in our strains herewith offered, as it has always been our policy to secure the very best obtainable, cost being a secondary consideration. We would specially recommend our strains of **Aster, Calceolaria, Cineraria, Pansy, Petunia, Primula, Stocks, Verbena, Cyclamen, Mignonette,** and all such other seeds as are much in demand by florists.

All seeds here quoted are in trade packets, and contain liberal quantities proportionate with ounce price; only such seeds as are used in any quantity are quoted by the ounce. Seeds that are not generally used by florists will be found in our General Catalogue.

☞ **All Flower Seeds are tested for vitality before being sent out.**
